HEARING RESEARCH

Vol. 61, No. 1/2 August 1992

CONTENTS

J.J. Eggermont (Canada)
Stimulus induced and spontaneous rhythmic firing of single units in cat primary auditory cortex 1

N. Inamura and A.N. Salt (USA)
Permeability changes of the blood-labyrinth barrier measured in vivo during experimental treatments 12

A.B. Greenberg, M.W. Myers, D.O. Hartshorn, J.M. Miller and R.A. Altschuler (USA)
Cochlear electrode reimplantation in the guinea pig 19

A.F. Ryan, G.A. Axelsson and N.K. Woolf (USA, Sweden)
Central auditory metabolic activity induced by intense noise exposure 24

C.J.H. Wong, E.C. To and D.W.F. Schwarz (Canada)
Location of motoneurons innervating the middle ear muscle of the chicken, (*Gallus domesticus*) 31

B.A. Schulte and R.A. Schmiedt (USA)
Lateral wall Na,K-ATPase and endocochlear potentials decline with age in quiet-reared gerbils 35

E. Veuillet, L. Collet and A. Morgon (France)
Differential effects of ear-canal pressure and contralateral acoustic stimulation on evoked otoacoustic emissions in humans 47

T. Sugai, J. Yano, M. Sugitani and H. Ooyama (Japan)
Actions of cholinergic agonists and antagonists on the efferent synapse in the frog sacculus 56

R.P. Cecola and R.P. Bobbin (USA)
Lowering extracellular chloride concentration alters outer hair cell shape 65

L. Li and J.B. Kelly (Canada)
Binaural responses in rat inferior colliculus following kainic acid lesions of the superior olive: Interaural intensity difference functions 73

S. Takeuchi, D.C. Marcus and P. Wangemann (USA)
Ca^{2+}-activated nonselective cation, maxi K^+ and Cl^- channels in apical membrane of marginal cells of stria vascularis 86

M.A. Gratton and C.G. Wright (USA)
Alterations of inner ear morphology in experimental hypercholesterolemia 97

S.G. Kujawa, T.J. Glattke, M. Fallon and R.P. Bobbin (USA)
Intracochlear application of acetylcholine alters sound-induced mechanical events within the cochlear partition 106

K.M.M. Nicol, C.M. Hackney, E.F. Evans, S.R. Pratt (UK)
Behavioural evidence for recovery of auditory function in guinea pigs following kanamycin administration 117

M. Hangfu, J. Zhao and D. Din (People's Republic of China)
The prophylactic effect of thyroxin on kanamycin ototoxotity in guinea pigs 132

(continued on page 202 of text)

Cited in: Biological Abstracts (BIOSIS); Chemical Abstracts; Current Contents/Life Sciences; Current Awareness in Biological Sciences (CABS); Excerpta Medica (EMBASE); Index Medicus; INSPEC; PASCAL M; Reference Update

Printed in The Netherlands

Printed in The Netherlands

D. Harvey and K.P. Steel (UK)
The development and interpretation of the summating potential response 137

T. McGee, N. Kraus, T. Littman and T. Nicol (USA)
Contributions of medial geniculate body subdivisions to the middle latency response 147

D. Demêmes and E. Scarfone (France)
Fodrin immunocytochemical localization in the striated organelles of the rat vestibular hair cells 155

L. Demany and C. Semal (France)
Detection of inharmonicity in dichotic pure-tone dyads 161

F.P. Fischer (FRG)
Quantitative analysis of the innervation of the chicken basilar papilla 167

S. Shannon-Hartman, D. Wong and M. Maekawa (USA)
Processing of pure-tone and FM stimuli in the auditory cortex of the FM bat, *Myotis lucifugus* 179

H. Sohmer and I. Friedman (Israel)
Prolonged conductive hearing loss in rat pups causes shorter brainstem transmission time 189
